I'm a desktop, mobile & front-end software developer with 8 years of professional experience. Creating awesome things with code is my passion, my livelihood and my favorite hobby. I've had the privilege to work on a variety of projects from start-ups to multi-million dollar government contracts.

WORK HISTORY

APR 2013 - PRESENT

Senior Consultant

ACUMEN SOLUTIONS

Provided enterprise level consulting on the Salesforce.com and iOS platform. Was a key technical resource on a large project for the U.S. Department of Energy. Implemented several vital portions of this solution, including financial tracking, content uploading and communities. Innovated an HTML5 drag and drop file uploader from scratch on the Force.com platform. Maintained development of the Comcast Small Business iOS app. Managed and implemented monthly updates and bug fixes, as well as participated in deployment activities. This end-to-end participation was great experience with an enterprise level operation. Co-Founded "Workshop Wednesday", an internal effort to increase the mobile development capability within the company. Created the Connect! by Acumen Solutions iOS app for Dreamforce 2014. Designed and architected the mobile experience for this app for attendees of the conference.

JAN 2007 - APR 2013

Software Engineer

CURTIS RESEARCH, INC.

As lead developer I have managed two developers, added many invaluable features to the software, and supported our 150+ companies who use the software for day to day operations (including bug fixes and feature requests). Along with software development, I manage the Microsoft SQL Server for the application.

FEB 2011 - PRESENT

Owner

COFFEE BEAN STUDIOS LLC

Managed projects and implemented various custom solutions, from web applications to mobile applications. Hired and managed independent contractors. Some apps I've created: Asado, Pee in the Dark, Apex Labs, Fairy Fashion Party, Magical World of the Real Tooth Fairies.
